

Analysis on the Basis of Time

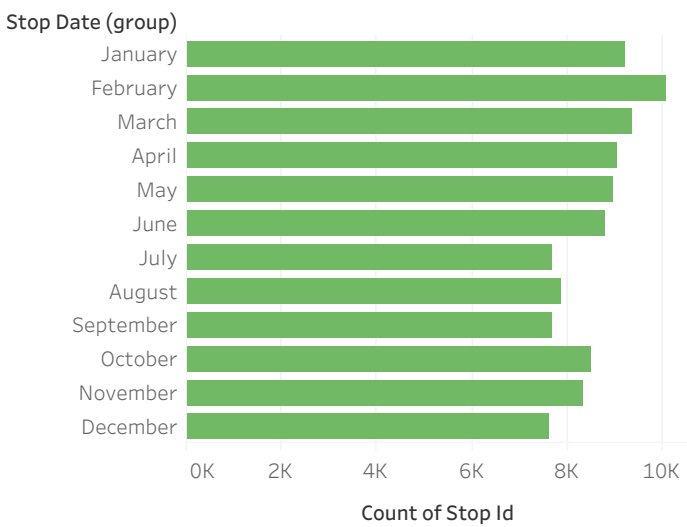

Number of Vehicles Stopped by SDPD in Each Hour of the Day

There was a sharp decrease in vehicle stops between 12 am and 6 am, since fewer people drive then. The number of vehicle stops surged from 7 am and peaked at 10 am, which could be due to office traffic. People may be speeding or driving haphazardly.

Stops in Each Month of 2016 by SDPD

The number of stops in the first half of 2016 was much greater than in the last 6 months. The late winter and spring seasons had more vehicle stops than the other seasons.

Stops by SDPD On Each Day of the Week

In 2016, the distribution of vehicle stops was not uniformly distributed across days of the week. Tuesdays and Wednesdays had the most stopped vehicles.
